1709.04 ENFORCEMENT.

Enforcement provisions of the Electrical Code shall rest with the Electrical Inspector or his duly authorized representative.
(Ord. 6-1977 §4. Passed 3-1-77.)

1709.05 DUTIES OF ELECTRICAL INSPECTOR.

(a) The Electrical Inspector shall enforce all provisions of the Electrical Code. He shall receive applications for permits and issue permits. To enforce compliance with law he shall issue such notices or orders as may be necessary and shall require the production of such books, records and compliance certificate of a certified inspection agency from applicants for permits or the holders of permits as may be necessary to insure compliance with respect to permits and fees.
(Ord. 18-1988 §4. Passed 10-4-88.)

(b) Inspections to insure compliance with this Electrical Code shall be made by the Electrical Inspector or his duly appointed assistant. Persons owning industrial or manufacturing facilities requiring large and complex electrical wiring systems may make application for annual permit, as further defined in Section 1709.06(i), which permit shall relieve them from the inspection requirements of this section. If firms or corporations can demonstrate to the satisfaction of the Electrical Inspector that such firm or corporation regularly employ competent personnel qualified to make such installations, alterations and extensions, and that it is the policy of such firm or corporation that all electrical wiring systems conform to the standards of the Electrical Code, the Electrical Inspector shall issue such annual permit. The Electrical Inspector may, at reasonable times, inspect the electrical wiring of such facilities to determine whether they are in conformity with the Electrical Code.

(c) The Electrical Inspector shall keep comprehensive records of applications, of permits issued, of inspections made, or reports rendered and of all notices or orders issued. He shall retain on file copies of required plans and all documents relating to electrical work so long as any part of the building or structure to which they relate may be in existence.

(d) All records shall be open to public inspection for good and sufficient reasons at the stated office hours, but shall not be removed from the office of the Electrical Inspector without his written consent.

(b) The application for an electrical job permit shall be accompanied by a sketch, wiring diagram, or written description of the work to be done, depending upon the complexity of the job. The information presented shall be in sufficient detail to enable the Electrical Inspector to determine that the proposed work will conform to the requirements of the Electrical Code. If, in the course of the work, it is found necessary to make any changes from the plans and specifications on which a permit has been issued, amended plans and specifications shall be submitted and a supplementary permit, subject to the same conditions applicable to the original application for permit, shall be issued to cover the change. (Ord. 6-1977 §6. Passed 3-1-77.)

(c) Fees for the construction, alteration or extension of electrical wiring systems shall be in accordance with the fee schedule established by the BOCA National Building Code, 1999 edition, Section 112.3.1, as is otherwise adopted and amended by resolution of Council, and this fee shall be in addition to and separate from the required building permit fees. (Ord. 1-2000. Passed 1-18-00.)

A brief explanation of the emergency work to be performed shall also be forwarded to the Electrical Inspector for his approval.

(e) An amendment to the original permit shall be required if the scope of the work covered by the original permit is changed. Any additional fee required because of a change in the estimated cost of the work or an amendment to the work as originally proposed shall be submitted to the Electrical Inspector not later than one week after the completion of the work. (Ord. 6-1977 §6. Passed 3-1-77.)

(f) Before any permit is issued, the applicant shall designate an inspection agency using inspectors certified by the International Association of Electrical Inspectors through Educational Testing Services testing that shall provide the final certificate of approval. The applicant may change the inspection agency only with the written approval of the Electrical Inspector. (Ord. 18-1988 §5. Passed 10-4-88.)

(g) A permit shall not be required for the replacement of existing sockets, lamps, controls, motors or fuses where no additional wiring is involved.

(h) If after issuance of a permit, the work has not been started within ninety days, or subsequent to the starting thereof has been discontinued for a period of six months, such permit shall become void. (Ord. 6-1977 §6. Passed 3-1-77.)

(i) Persons owning industrial or manufacturing facilities requiring large and complex electrical wiring systems may make application for an annual permit relieving them from the requirements of Sections 1709.06 and 1709.07. If the Electrical Inspector is satisfied that such person employ full-time competent personnel, skilled in electrical maintenance work to make such installations, alterations and extensions, and that all electrical wiring systems conform to the standards of the Electrical Code, he shall issue an annual permit. This permit shall be considered a company permit and there shall be a flat fee of one hundred dollars (\$100.00) payable on or before January 1 of each year. It is not the intent of an annual company permit to cover work done by any part-time or outside electrical contractor retained by an industrial or manufacturing concern. (Ord. 18-1988 §5. Should the existing electrical wiring system be found defective or unsafe, the system or portion of the system shall be disconnected until it is corrected and made to comply with the provisions of the Electrical Code and in accordance with this article.

(d) The Electrical Inspector, or his duly authorized City representative, may inspect any electrical construction, installation, addition or extension, regardless of value.

The applicant shall be advised by the City Clerk of the time and place of the meeting at which his application will be considered and shall have the right to attend and be heard as to his reasons for filing same. In determining whether or not to certify to the appropriateness of the proposed erection, reconstruction, alteration, restoration, demolition or razing of all or a part of any building within the historic district, Council shall consider the same factors as the Board which are set forth in Section 1731.09 and the report of the Board.

1751.01 LEGISLATIVE FINDINGS.

(a) The Council finds that public nuisances exist in the City of York in the operation of certain buildings, structures and dwellings and the use and occupation of property in flagrant and persistent violation of state and local laws and ordinances, which nuisances substantially and seriously interfere with the interest of the public in enhancing the quality of life and community environment in the City, and in fostering and facilitating commerce, maintaining and improving property values, and preserving and protecting the public health, safety, and welfare. Council further finds that the persistence of such activities and violations is detrimental to the health, safety, and welfare of the people of the City of York and of the dwellings and businesses thereof and the visitors thereto.

(b) Various code and statutory provisions, including, but not limited to, those found in the Commonwealth of Pennsylvania Crimes Code, the City of York's Property Maintenance Code, and the City of York's Codified Ordinances pertaining to unreasonable noise, disorderly conduct, and litter and weeds, are enforced by the filing of charges and citations against the persons responsible for violations of the same. Council finds that, in spite of enforcement efforts, recurring code and statutory violations on property can lead to the creation of public nuisances on said property. Therefore, it is necessary and desirable in the public interest to enact a public nuisance abatement law in order to: eliminate local public nuisances by removing parcels of real property in the City from a condition that consistently and repeatedly

violates municipal law; make property owners vigilant in preventing public nuisances on or in their property; ensure that property owners are responsible for the use of their property by tenants, guests and occupants; provide locally enforceable remedies for violations of local ordinances; and otherwise deter public nuisances. Council further finds that the sanctions and penalties that may be imposed by the Police Department pursuant to this law constitute an additional and appropriate method of law enforcement in response to the proliferation of the above-described public nuisances. The sanctions and penalties are reasonable and necessary in order to protect the health and safety of the people of the City and to promote the general welfare. (Ord. 40-2008. Passed 10-7-08.)

1751.02 PUBLIC NUISANCE DEFINED.

For purposes of this section, a public nuisance shall be deemed to exist whenever, through violation of any of the following provisions resulting from separate incidents at a building, structure, dwelling erection or place, twelve (12) or more points are accumulated within a period of six (6) months, or eighteen (18) or more points are accumulated within a period of twelve (12) months, in accordance with the following point system. Where more than one (1) violation occurs during a single incident, the total points for the incident shall be the highest point value assigned to any single violation. For the purposes of this article, an incident will be defined as the execution of an enforcement action in response to a violation of the law. In addition, any property that is determined to be blighted, as defined in the Pennsylvania Urban Redevelopment Law, 35 PS §1712.1(c) or the Property Rights Protection Act, 26 Pa.C.S.A. §205(b) is hereby declared to be a nuisance. The Police Commissioner or his/her designee is authorized to cause the premises to be closed and/or secured by the City or by contract or arrangement with private persons. If the property is a multi-unit building, the Police Commissioner or his/her designee shall only secure the offending unit or units and not the entire building. The length of time that the premises are closed and/or secured pursuant to this Section shall be at the City's discretion, but in no event shall the closing and/or securing of the premises be for more than one year from the date of the posting of the Order closing and/or securing the premises.

In addition, with respect to the reconsideration of points, the notice shall advise the owner that, should the owner take all reasonable and available steps to terminate the public nuisance activity, including immediately repairing the property if the property is in violation of any local or state codes or commencing an eviction action to terminate the lease of any tenant who is permitting or maintaining the public nuisance activity on the property, the City will positively consider such remedies taken by the owner when determining whether to remove the initial assessment of points from the property.

If the initial assessment of points were for a combination of criminal and building, housing, plumbing, fire or other related codes violations, the Police Commissioner may consult with either the Building Official, Building Code Official and/or the Fire Chief when reconsidering the imposition of points. The City shall, within thirty (30) days, issue a written decision as to whether the assessment of points was merited or whether the property owner has taken reasonable and available actions as to necessitate the removal of the points. No reconsideration of points shall occur after the initial assessment of points.
(Res. 153-2008. Passed 10-7-08.)

(e) The Police Commissioner shall maintain on the City website and/or in written form, available for public view, a current list of all properties against which points have been assessed, the dates that points were assessed, the number of points against the property, an indication of points that are under review for reconsideration or under appeal to the Board of Appeals, and the appropriate office to contact for detailed information on the alleged violations. (Ord. 40-2008. Passed 10-7-08.)

1751.09 REMOVAL OF POINTS.

The points assessed to the property shall remain on the property if:

- (b) Following the property owner's request for reconsideration under Section 1751.06(d), the City determines that the points assessed to the property were merited; or
- (c) Following an appeal to the Board, the Board does not reverse the City's determination that the property constitutes a public nuisance as defined herein.

The owner shall furnish to the Police Commissioner a signed and notarized statement from the grantee, transferee, mortgagee or lessee, acknowledging the receipt of such notices of points assessments, notices of closure, or Board decisions and fully accepting the responsibility without condition for making the necessary repairs or taking such necessary actions so as to prevent the premises from becoming or remaining a public nuisance.

(b) The Board shall establish such rules and regulations for its own procedure not inconsistent with the provisions of this article.

(c) At the hearing, the Board shall determine whether the points were properly assessed to the property and whether the property constitutes a public nuisance as defined herein.

(d) If the Board concludes that the property constitutes a public nuisance, the Board may make a recommendation to the City as to whether the City should invoke the remedies available to it under Section 1751.05 of this article or enter into a Nuisance Abatement Agreement with the property owner as provided by Section 1751.12 hereof. Although not binding, the City may take the Board's recommendation into consideration when determining the proper remedy so as to promptly abate the public nuisance.

(e) The Board shall reach a decision at the hearing, and said decision shall be set forth in writing within thirty (30) days of the hearing. Every decision of the Board shall be final, subject, however, to such remedy as any party may have at law.

(Ord. 40-2008. Passed 10-7-08.)

1751.13 VALIDITY.
