Membership Information

About Friends of York City

Believing that special events set the tone of a community, the City of York has created a way for not just businesses, but also individuals to personally make a difference in the City where they live, work and play. The Friends of York City is a program that allows individuals to make a monetary donation that they are comfortable with. Even the smallest donation makes a significant difference.

Past funding for special events has been through grants and corporate support. The City of York wants to ensure the success of future special events by enlisting the support of individuals through this program. By becoming a Friend of York City, not only are you monetarily supporting the City's special events, but you are serving as an advocate for the future of these events. Now *that's* something to celebrate!
