935.01 SHORT TITLE.

This Title Four of the Streets, Utilities and Public Services Code shall be known and may be cited as the "City of York Stormwater Management Ordinance."  
(Ord. 32-2011. Passed 10-4-11.)

935.02 STATEMENT OF FINDINGS.

The City Council of the City of York finds that:

- (a) Inadequate management of accelerated runoff of stormwater resulting from development throughout a watershed increases flows and velocities, contributes to erosion and sedimentation, overtaxes the carrying capacity of streams and storm sewers, greatly increases the cost of public facilities to carry and control stormwater, undermines flood plain management and flood control efforts in downstream communities, reduces groundwater recharge, threatens public health and safety, and increases non-point source pollution of water resources.
- (b) A comprehensive program of stormwater management, including reasonable regulation of development and activities causing accelerated runoff, is fundamental to the public health, safety, and welfare and the protection of people of the Commonwealth, their resources, and the environment.
- (c) Stormwater is an important water resource, which provides groundwater recharge for water supplies and base flow of streams, which also protects and maintains surface water quality.
- (d) Federal and state regulations require certain municipalities to implement a program of stormwater controls. These municipalities are required to obtain a permit for stormwater discharges from their separate storm sewer systems under the National Pollutant Discharge Elimination System (NPDES).  
(Ord. 32-2011. Passed 10-4-11.)

935.03 PURPOSE.

The purpose of this Ordinance is to promote health, safety, and welfare within the Municipality and its watershed(s) by minimizing the harm and maximizing the benefits described in Section 935.02, through provisions designed to:

- (a) Meet legal water quality requirements under state law, including regulations at 25 Pa. Code 93 to protect, maintain, reclaim, and restore the existing and designated uses of the waters of this Commonwealth.
- (b) Preserve the natural drainage systems as much as possible.
- (c) Manage stormwater runoff close to the source.
- (d) Provide procedures and performance standards for stormwater planning and management.
- (e) Maintain groundwater recharge to prevent degradation of surface and groundwater quality and to otherwise protect water resources.
- (f) Prevent scour and erosion of stream banks and stream beds.

- (g) Provide proper operation and maintenance of all SWM BMPs that are implemented within the municipality.
- (h) Provide standards to meet NPDES permit requirements.  
(Ord. 32-2011. Passed 10-4-11.)

935.04 STATUTORY AUTHORITY.

(a) Primary Authority: The Municipality is empowered to regulate land use activities that affect stormwater impacts by the authority of the Third Class City Code and the Act of October 4, 1978, P.L. 864 (Act 167), 32 P.S. Section 680.1, et seq., as amended, the "Stormwater Management Act."

(b) Secondary Authority: The Municipality is also empowered to regulate land use activities that affect runoff by the authority of the Act of July 31, 1968, P.L. 805, No. 247, The Pennsylvania Municipalities Planning Code, as amended.  
(Ord. 32-2011. Passed 10-4-11.)

**935.05 APPLICABILITY.**

All regulated activities and all activities that may affect stormwater runoff, including land development and earth disturbance activity, are subject to regulation by this article. Article 942, Detention and Elimination of Illicit Discharges to the Municipal Separate Storm Sewer System, shall be applicable to all water entering the storm drain system of the Municipality generated on any developed and undeveloped lands unless explicitly exempted by the Municipality. (Ord. 32-2011. Passed 10-4-11.)

**935.06 REPEALER.**

Any other ordinance provision or regulation of the Municipality inconsistent with any of the provisions of this Ordinance is hereby repealed to give this Ordinance full force and effect to the extent of the inconsistency only. (Ord. 32-2011. Passed 10-4-11.)

**935.07 SEVERABILITY.**

In the event that a court of competent jurisdiction declares any section, clause or provision of this Ordinance invalid, such decision shall not affect the validity of any of the remaining sections, clauses or provisions of this Ordinance. (Ord. 32-2011. Passed 10-4-11.)

**935.08 COMPATIBILITY WITH OTHER PERMIT AND ORDINANCE REQUIREMENTS.**

Permits and approvals issued pursuant to this Ordinance do not relieve the applicant of the responsibility to secure required permits or approvals for activities regulated by any other applicable code, rule, act or ordinance. If more stringent requirements concerning regulation of stormwater or erosion and sedimentation control are contained in another code, rule, act or ordinance, the more stringent regulations shall apply. (Ord. 32-2011. Passed 10-4-11.)
