ESTIMATED IMPACT ANALYSIS

*APPLICATIONS DUE: **November 10th, 2023***

- Funding request must be reasonably proportional to the demonstrated impact
- Impact analysis calculation will determine a total estimated impact by assessing a loss in revenue and total uncompensated estimated increase in expenses (or direct COVID-related expenditures) during COVID years using the grant narrative and financial documentation provided.
- Estimated impact will then be reduced by any alternate funding your organization has received for COVID-related impacts between March 2020 and the time of application (CARES, PPP, EIDL, etc.) to determine the remaining "unmet need".
- Applicant's "unmet need" will be eligible for funding up to the capped grant amount ($45k) and total program funding allocation ($1M) available.

TOTAL PROGRAM ALLOCATION: $1M
GRANTS AVAILABLE UP TO $45,000
